Dear Friends,

Welcome to the Holistic Child Health Newsletter.

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children.

Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,

Lawrence B. Palevsky, MD

ICAN LEGAL UPDATES

ICAN is suing Governor Gavin Newsom in California for his announcement that the children of that state will be forcibly vaccinated with the Covid-19 vaccine.

Because it's immoral...it's unjust...it's illegal.

And we're not going to stand for it.

Our hearts were with the people of California when Newsom's terrible announcement took place. It's an aberration inside a free nation to even hear those words come through our televisions!

What's the basis of our claims, you ask? Well, they're very simple. If you're going to stop the disease, or you're going to stop the pandemic, you have to have a vaccine that can do that. THIS ONE DOES NOT: It does not stop infection. It does not stop transmission. It does not protect anyone around you.

Therefore, the entire purpose of the vaccine – is moot.

What's more, when it comes to children, we know they're likely at higher risk of injury from the vaccine than from the disease itself.

You and I have seen the announcements from the CDC. And you've heard about it on The HighWire: Raised risks of myocarditis and pericarditis in children, putting them in hospitals, swelling their hearts. And leaving them with unknown, long term damages, and potentially death in their future! We also know that their rate of surviving Covid-19 is about 99.9973%, therefore they're at no risk from anything...except the vaccine.

And lastly, if you want to promote a product and give it to children, without proper long term safety trials, then at least there should be some liability, so the parents can sue the manufacturer. Unfortunately, thanks to the 1986 vaccine injury compensation program and the PREP Act, we can't sue if this product kills or injures our children.

So, the pharmaceutical industry is more protected than the parents of California! So, ICAN is stepping in to protect the children and families of California. The Informed Consent Action Network legal team, headed by Aaron Siri, bringing the case to California. We're not going to rest until we win. So let

it be known, Gavin Newsom, if you want to act like a jerk, we'll treat you like one. We're coming after you, buddy, and we mean business!

If you are in a position to help with this crucial lawsuit that will affect California and the whole country, and help make our other vital programs possible, please become an ICAN monthly supporter with your best gift of \$21, \$35, or more per month. Monthly support plays a critical role in providing steady, reliable revenue to run our life-saving programs. And to say thank you for becoming a special monthly supporter, we'll send you one of our brand-new "Get Factsinated" T-shirts! (They sold out, and we just got a new order in.)

Please Click Here to Donate:

<https://secure.anedot.com/informed-consent-action-network/1f51ccb3-6fed-4364-bbof-420a2c2782bd>

If you can't give monthly right now, please give a critically important, one-time gift of \$25, \$50, \$100, or more. Even \$5 or \$10 will help ICAN fight Gavin Newsom's monstrous vaccine mandate, and get The HighWire in front of millions of new viewers.

I can't do it without you.

Stay tuned to The HighWire for breaking news about this important case as it happens.

Thank you so much! Be Brave!
