

## WELCOME TO THE HOLISTIC CHILD HEALTH NEWSLETTER

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children.

Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,

***Lawrence B. Palevsky, MD***

# STAY CONNECTED

Measles: A Scapegoat for a Bigger Health Crisis?

Dr. Nick and Leah Wilson welcome renowned pediatrician Dr. Lawrence B Palevsky to unpack the latest measles outbreak hysteria on their One Dream Podcast. Is the media-driven panic justified, or is this part of a bigger agenda? They discuss the truth about measles, vaccine efficacy, and the long-term impact of public health policies.

Fear Funds Pharma Profits - Dr Palevsky Talks with Brian Hooker on CHDTV

Childhood illnesses are greatly misunderstood. Rather than speaking sensibly about how they are acquired, treated and prevented, public health officials and agencies allow drug manufacturers to profit off of the fear that is conjured up in response to the outbreaks and circulating diseases among the public. Is this ethical? Join Larry Palevsky, M.D. and Brian Hooker, Ph.D. on "Doctors & Scientists" as they seek to bring to light the truth about measles and other health 'threats' in the modern age.

Dear Readers, I am highlighting these two sentences in the NY Times article for a reason: While the C.D.C.’s own website refutes a connection between vaccines and autism..... Mr. Kennedy has for years maintained that there is a link between vaccines and autism. He held to that stance during his Senate confirmation hearings, despite extensive research debunking the theory.

## PRIME MY BODY

As a pediatrician, I see children dealing with levels of extreme anxiety like never before. The constant fight or flight response affects all aspects of our well-being - sleep patterns, emotional and mental states, ability to focus and manage trauma. It was recently discovered that we have an endocannabinoid system that regulates all of the other systems in our body. This system has become deficient with the overload of toxins and excessive stress from today's world. Hemp, which is a food high in cannabinoids, brings our bodies back into balance when we consume it.

**I specifically recommend the CALM Formula, FOCUS Formula, and the SHIELD Formula.**

I highly recommend trying a variety of products and doses for your children (and yourself) to see which work best for you. This is the first time I have ever endorsed any product of any kind, but I believe our cannabinoid systems need to be nourished and have seen improvements in my patients who whose CBD and CBG - and these are products I feel confident to stand behind.

Give them a try and please share your family testimonials with us! We want to hear how they work for you so we can begin to document the results.

*Note: Currently only available in US, Mexico, Japan and South Africa*
